

PRIVACY POLICY

Personal data entered while creating profiles is only used on the device(s) where the app is installed and not given to any third parties without your consent.

Depending of the version you are using, the app may require some permissions to access your location, contacts but also to make phone calls and send SMS. All permissions that are requested are solely used to enable app features.

Non continuous geo-location:

This Application may collect, use, and share User location Data in order to provide location-based services. Most browsers and devices provide tools to opt out from this feature by default. If explicit authorization has been provided, the User's location data may be tracked by this Application. The geographic location of the User is determined in a manner that isn't continuous, either at the specific request of the User or when the User doesn't point out its current location in the appropriate field and allows the application to detect the position automatically.

Personal Data collected: Geo-graphic position.

Displaying content from external platforms:

This type of services allows you to view content hosted on external platforms directly from the pages of this Application and interact with them. This type of service might still collect web traffic data for the pages where the service is installed, even when Users do not use it.

Google Maps widget (Google Inc.):

Google Maps is a maps visualization service provided by Google Inc. that allows this Application to incorporate content of this kind on its pages.

Personal Data collected: Cookies and Usage data.

Changes to this privacy:

We reserve the right to make changes to this privacy policy at any time by giving notice on this page. It is strongly recommended to check this page often, referring to the date of the last modification listed at the top. If you object to any of the changes to the Policy, you must cease using EHR247 Services.

If you have any question, you may contact info@ehr247.com.
